

Barratt Homes Construction Newsletter

Construction Update

SITE B2

Work on B2 is nearing completion, with the scaffolding now almost completely removed, apart from one small area on the south elevation. The crane is booked to be removed on May 8th.

The internal fit out is ongoing with the first completed flats due to be signed-off by the NHBC and the Council of Mortgage Lenders for sale in May.

We have also started on the external works to the Surrey Quays Road. This will include tree planting and landscaping works, due to commence in the next two months. More details on this will follow in future construction newsletters.

Site B2 nearing final completion

SITE A1

Site A1 works well underway

Work on A1 is now well underway, with the basement slab for cores 4 and 5 in place and the construction of the walls and columns for the podium progressing well.

SITE A2

Piling for site A2 has begun, as of the 28th April 2010.
